BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 97-476-C - ORDER NO. 98-101
FEBRUARY 11, 1998

IN RE: Application of Myrtle Beach Telephone, L.L.C. for a Certificate of Public Convenience and Necessity to Provide Intrastate Interexchange, Local Exchange, and Exchange Access Telecommunications Services within the State of South Carolina.) ORDER APPROVING CERTIFICATE TO PROVIDE LOCAL AND LONG DISTANCE RESOLD AND FACILITIES-BASED TELECOMMUNICATIONS SERVICES

This matter comes before the Public Service Commission of South Carolina ("the Commission") by way of an Application filed by Myrtle Beach Telephone, L.L.C. ("MBT" or "the Company") in which MBT requested that the Commission grant a Certificate of Public Convenience and Necessity to allow the Company to provide intrastate interexchange, local exchange, and exchange access telecommunications services within the State of South Carolina. The Application was filed pursuant to S.C. Code Ann. §58-9-280 (Supp. 1997), and the Regulations of the Commission.

By letter dated December 11, 1997, the Commission's Executive Director instructed MBT to publish, one time, a prepared Notice of Filing in newspapers of general circulation in the areas affected by the Application. The purpose of the Notice of Filing was to inform interested parties of the manner and time in which to file

the appropriate pleadings for participation in the proceedings. MBT complied with this instruction and provided the Commission with proof of publication of the Notice of Filing. A Petition to Intervene was received from the South Carolina Telephone Coalition ("SCTC").

A hearing was convened on January 27, 1998, at 11:00 a.m. in the Commission's Hearing Room. The Honorable Guy Butler, Chairman, presided. MBT was represented by B. Craig Collins, Esquire. The Commission Staff ("Staff") was represented by Florence P. Belser, Staff Counsel. SCTC did not appear at the hearing.

Prior to the hearing, MBT and the SCTC executed a Stipulation dated January 5, 1998. The Stipulation was filed with the Commission prior to the hearing. The Stipulation was entered into evidence at the hearing as Hearing Exhibit No. 1. The Stipulation provides the following:

- (1) The SCTC does not oppose the granting of a statewide Certificate of Public Convenience and Necessity to MBT if the Commission makes the necessary findings to justify granting the Certificate and provided all stipulated conditions are met;
- (2) MBT agrees that any Certificate granted by the Commission will authorize MBT to provide service only to customers located in non-rural local exchange company ("LEC") service areas except as otherwise provided;
- (3) MBT agrees that it is not requesting the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas;
- (4) MBT agrees that it will not provide local service, by its own facilities or otherwise, to any

customer in a rural incumbent LEC's service area, unless and until MBT provides such rural incumbent LEC and the Commission with written notice of its intent to do so at least thirty (30) days prior to the date of the intended service. During such notice period, the rural incumbent LEC will have the opportunity to petition the Commission to exercise all rights afforded it under Federal and State law. MBT also acknowledges that the Commission may suspend the intended date for service in rural LEC territory for ninety (90) days while the Commission conducts any proceeding incident to the Petition or upon the Commission's own Motion, provided that the Commission can further suspend the implementation date upon showing of good cause;

- (5) MBT agrees that if, after MBT gives notice that it intends to serve a customer located in a rural incumbent LEC's service area, the Commission receives a Petition from the rural incumbent LEC to exercise its rights under Federal or State law, or the Commission institutes a proceeding of its own, then MBT will not provide service to any customer located within the service area in question without prior and further Commission approval;
- (6) MBT acknowledges that any right which it may have or acquire to serve a rural telephone company service area in South Carolina is subject to the conditions contained herein, and to any future policies, procedures, and guidelines relevant to such proposed service which the Commission may implement, so long as such policies, procedures and guidelines do not conflict with Federal or State law;
- (7) MBT and the SCTC agree that all rights under Federal and State law are reserved to the rural incumbent LECs, and that the Stipulation in no way suspends or adversely affects such rights, including any exemptions, suspensions, or modifications to which they may be entitled; and
- (8) MBT agrees to abide by all State and Federal laws and to participate, to the extent it may be required to do so by the Commission, in the support of universally available telephone service at affordable rates.

This stipulation is consistent with our decision in Order No. 96-494 (Docket No. 96-073-C). It was signed voluntarily by both the SCTC and MBT and was filed with the Commission prior to the hearing in this matter. We therefore accept and approve the Stipulation.

At the hearing on this matter, MBT presented William A. Byrd to testify in support of the Application. Mr. Byrd is the President of MBT. The purpose of Mr. Byrd's testimony was to discuss the Application and the qualifications of MBT to provide the services for which MBT seeks authority.

DISCUSSION

With respect to local exchange service, the record reveals that MBT seeks authority to provide resold and facilities-based local exchange and exchange access services. S.C. Code Ann. §58-9-280 (Supp. 1997) provides that "the [C]ommission may grant a certificate to operate as a telephone utility ... to applicants proposing to furnish local telephone service in the service territory of an incumbent LEC."

After full consideration of the applicable law, MBT's Application, and the evidence presented at the hearing, the Commission finds and concludes that MBT's request for a Certificate to provide local telephone service in the form of resold and facilities-based local exchange and exchange access services should be granted. The Commission's determination is based on the following criteria as provided in S.C. Code Ann. §58-9-280 (Supp. 1997) and the evidence presented which relates to that criteria:

(1) The Commission finds that MBT possesses the technical, financial, and managerial resources sufficient to provide the services requested. S.C. Code Ann. §58-9-280(B)(1) (Supp. 1997). To demonstrate MBT's managerial and technical qualifications, witness Byrd testified that MBT has more than sufficient technical and managerial resources available with which to provide telecommunications services in South Carolina. Mr. Byrd further stated that MBT's management has vast experience in the telecommunications industry and is well qualified to direct the efficient provision of quality services.

Regarding MBT's financial resources, the record reveals that MBT is a limited liability company organized and existing under the laws of the State of South Carolina. Mr. Byrd stated that MBT has ample financial resources available to operate as a telecommunications provider. Further, Mr. Byrd offered that MBT's investors are committed to maintaining adequate capital to provide the proposed telecommunications services in South Carolina.

No party offered any evidence in opposition to Mr. Byrd's testimony. Based on the undisputed testimony of Byrd, the Commission finds that MBT possesses the technical, financial, and managerial resources sufficient to provide the services requested.

(2) The Commission finds that MBT will provide services that will meet the service standards of the Commission. S.C. Code Ann. §58-9-280(B)(2) (Supp. 1997). Mr. Byrd indicated that MBT intends to offer a full range of telecommunications services, including various resold and facilities-based interexchange, local exchange,

and exchange access telecommunications services. Mr. Byrd specifically stated that MBT intends to provide services whose quality meets or exceeds all standards set by the Commission. No party offered any evidence to dispute Mr. Byrd's testimony. Based on the undisputed testimony from Mr. Byrd, the Commission believes, and so finds, that MBT will provide telecommunications services which will meet the service standards of the Commission.

(3) The Commission finds that MBT's "provision of service will not adversely impact the availability of affordable local exchange service." S.C. Code Ann. §58-9-280(B)(3) (Supp. 1997). Mr. Byrd stated that authorizing MBT to provide service in South Carolina would not adversely impact affordable local exchange service and offered that certification of MBT should increase the availability of affordable local exchange service. No party offered any evidence that the provision of local exchange service by MBT would adversely affect local rates. Therefore, based on the undisputed evidence of record, the Commission finds that provision of local exchange services by MBT will not adversely impact affordable local exchange service.

(4) The Commission finds that MBT will support universally available telephone service at affordable rates. S.C. Code Ann. §58-9-280(B)(4) (Supp. 1997). Mr. Byrd testified that MBT intends to abide by all universal service requirements. No party disputed Mr. Byrd's testimony. Based on the undisputed evidence of record, the Commission finds that MBT will participate in support of universally available telephone service at affordable rates.

(5) The Commission finds that the provision of local exchange service by MBT "does not otherwise adversely impact the public interest." S.C. Code Ann. §58-9-280(B)(5) (Supp. 1997). Mr. Byrd offered that approval of MBT's application will benefit the public interest by providing innovative telecommunications services, increased customer choice, more efficient use of existing communications resources, and increased diversity in the supply of communications services. Mr. Byrd further offered that the entry of a new telecommunications provider should also increase competitive pressures that should foster lower prices and higher quality services. Mr. Byrd's testimony was undisputed as no party offered any evidence that approval of MBT's Application would adversely impact the public interest. Therefore, the Commission finds that approval of MBT's Application for a Certificate to provide local exchange service "does not otherwise adversely impact the public interest." S.C. Code Ann. §58-9-280(B)(5) (Supp. 1997).

In addition to requesting authority to provide local exchange service, MBT requests authority to provide intrastate interexchange telecommunications services. As stated above, the record reveals MBT's financial, technical, and managerial abilities to provide telecommunications services in South Carolina. The record further shows MBT's services, operations, and marketing procedures. Upon full consideration of MBT's Application and the evidence presented at the hearing, the Commission finds that MBT has the experience, capability, and financial resources to provide resold and facilities-based intrastate interexchange telecommunications

services in South Carolina, and further the Commission finds and concludes that MBT's request for a Certificate to provide resold and facilities-based intrastate interexchange telecommunications services should be granted.

Therefore, based on the findings above, the Commission finds and concludes that the Certificate sought by MBT should be granted.

IT IS THEREFORE ORDERED THAT:

1. MBT is hereby granted a Certificate of Public Convenience and Necessity, and the accompanying authority, (1) to provide resold and facilities-based local exchange and exchange access telecommunications services throughout South Carolina and (2) to provide resold and facilities-based intrastate interexchange telecommunications services within the State of South Carolina. MBT is hereby authorized to provide intrastate resold and facilities-based local exchange and exchange access telecommunications services in South Carolina, and MBT is hereby authorized to provide resold and facilities-based intrastate interexchange services, including interLATA services in South Carolina and to originate and terminate toll traffic within the same LATA, as set forth herein, through the resale of intrastate Wide Area Telecommunications Services (WATS), Message Telecommunications Service (MTS), Foreign Exchange Service, Private Line Service, or any other services authorized for resale by tariffs of carriers approved by the Commission.

2. With regard to MBT's local service offerings, MBT shall file, prior to offering local exchange services in South Carolina,

a final tariff of its service offerings. The final tariff shall include the modifications and changes to the proposed tariff to which MBT agreed with the Commission Staff.

3. The Commission adopts a rate design for MBT for its intrastate interexchange services which includes only maximum rate levels for each tariff charge. A rate structure incorporating maximum rate levels with the flexibility for adjustment below the maximum rate levels has been previously adopted by the Commission. In Re: Application of GTE Sprint Communications Corporation, etc., Order No. 84-622, issued in Docket No. 84-10-C (August 2, 1984).

4. MBT shall not adjust its rates for intrastate interexchange services below the approved maximum level without notice to the Commission and to the public. MBT shall file its proposed rate changes, publish its notice of such changes, and file affidavits of publication with the Commission two weeks prior to the effective date of the changes. However, the public notice requirement is waived, and therefore not required, for reductions below the maximum cap in instances which do not affect the general body of subscribers or do not constitute a general rate reduction. In Re: Application of GTE Sprint Communications, etc., Order No. 93-638, issued in Docket No. 84-10-C (July 16, 1993). Any proposed increase in the maximum rate level reflected in the tariff which would be applicable to the general body of the Company's subscribers shall constitute a general ratemaking proceeding and will be treated in accordance with the notice and hearing provisions of S.C. Code Ann. §58-9-540 (Supp. 1996).

5. With regard to its intrastate interexchange services, MBT shall file its revised maximum tariff and an accompanying price list within thirty (30) days from the date of receipt of this Order. The revised tariff shall be consistent with the findings of this Order, shall include all modifications suggested by Staff and agreed to by the Company, and shall be consistent with the Commission's Rules and Regulations.

6. With regard to its intrastate interexchange services, MBT is subject to access charges pursuant to Commission Order No. 86-584, in which the Commission determined that for access purposes resellers should be treated similarly to facilities-based interexchange carriers.

7. With regard to the Company's interexchange service, an end-user should be able to access another interexchange carrier or operator service provider if the end-user so desires.

8. MBT shall resell the services of only those interexchange carriers or LECs authorized to do business in South Carolina by this Commission. If MBT changes underlying carriers, it shall notify the Commission in writing.

9. With regard to the origination and termination of toll calls within the same LATA, MBT shall comply with the terms of Order No. 93-462, Order Approving Stipulation and Agreement, in Docket Nos. 92-182-C, 92-183-C, and 92-200-C (June 3, 1993).

10. MBT shall file surveillance reports on a calendar or fiscal year basis with the Commission as required by Order No. 88-178 in Docket No. 87-483-C. The proper form for these reports

is indicated on Attachment A.

11. The Company shall, in compliance with Commission regulations, designate and maintain an authorized utility representative who is prepared to discuss, on a regulatory level, customer relations (complaint) matters, engineering operations, tests and repairs. In addition, the Company shall provide to the Commission in writing the name of the authorized representative to be contacted in connection with general management duties as well as emergencies which occur during non-office hours. MBT shall file the names, addresses and telephone numbers of these representatives with the Commission within thirty (30) days of receipt of this Order. The proper form for filing the regulatory contact information is indicated on Attachment B. Further, the Company shall promptly notify the Commission in writing if the representatives are replaced, and the Company is directed to comply with the Commission regulations unless waived by the Commission.

12. MBT shall conduct its business and operations in accordance with Commission decisions and Orders, both past and future, including, but not limited to, any and all Commission decisions which may be rendered in Docket No. 96-018-C regarding local competition. Further, MTB shall conduct its business and operations in accordance with all applicable statutes and Commission Rules and Regulations, unless specifically waived by the Commission.

13. The Stipulation filed by MBT and the SCTC is approved by this Commission, is binding upon MBT and the SCTC, and shall be

implemented as set forth in the Stipulation. We therefore make no findings or conclusions regarding competition in the rural areas of South Carolina.

14. This Order shall remain in full force and effect until further Order of the Commission.
